

Weekly Progress Report

Name: Vinayak D

Domain: Python Development

Week Ending: 04

I. Overview:

This week focused on implementing advanced features, enhancing usability, and preparing the File Organizer project for final deployment. The primary emphasis was on adding customization options, improving system reliability, and integrating logging mechanisms.

II. Achievements:

1. Advanced Feature Implementation:

- Added custom file category support allowing users to define sorting rules.
- Implemented user preference settings for directory paths and sorting behavior.
- Introduced preview functionality before organizing files.

2. Logging System:

- Developed logging mechanism to track file operations.
- Stored logs for debugging and monitoring application behavior.
- Added timestamps and operation details for better traceability.

3. UI/UX Improvements:

- Improved GUI responsiveness during large operations.
- Enhanced visual feedback with progress indicators.
- Refined layout for better user interaction.

4. Final Testing & Deployment Preparation:

- Conducted extensive testing across multiple scenarios.
- Fixed minor bugs related to user preferences and file handling.
- Prepared application for deployment with stable build.

III. Challenges:

1. Custom Category Conflicts:

- Overlapping rules caused incorrect file sorting.
- Resolved by prioritizing rules and adding validation checks.

2. Logging Overhead:

- Logging slowed performance slightly.
- Optimized by using efficient file handling techniques.

IV. Learning Resources:

- Explored advanced Python logging module.
- Learned best practices for application deployment and packaging.

V. Next Week's Goals:

- Final deployment and distribution.
- Create detailed user documentation and tutorials.
- Collect user feedback and plan improvements.

VI. Additional Comments:

This week marked the transition from development to deployment readiness. The project now includes advanced functionality, improved user experience, and robust logging, making it a complete and practical application.
